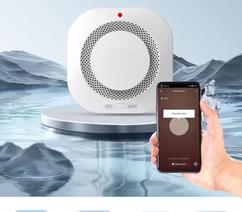
AULYX

AX-TYWFSMK9V

Wi-Fi Smoke Alarm

Protection You Can Depend On



Live strobe and sound alarm

Easy to install

High sensitivity

Real-time monitoring

photoelectric transducer

ABS flame retardant material

Energy saving battery

85dB

Accident are hidden around us

More than half of the fire accidents are caused in an inadvertent moment

Fire caught accidentally by cooking

Burning caused by aging wiring

Cigarette butts burning

Equipment heats up and burns

Suitable for many types of fire smoke

Solid fuel Wood, paper, clothes

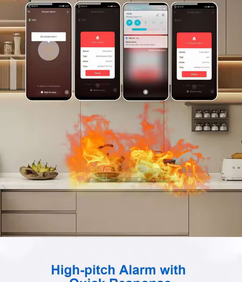
Flammable liquid Gasoline, diesel, formaldehyde

Charged material Wire short circuit or aging

tuya

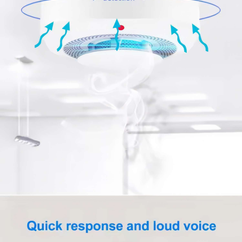
Mobile APP Remote push of alarm information

When a fire occurs, the alarm can be activated promptly
Send out sound and light alarm signals and connect via WiFi
Push the alarm information to the mobile app.



High-pitch Alarm with Quick Response

On activation of a fire alarm, the red indicator flashes immediately along with a 85db sound within a range of 3m.



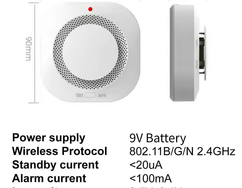
Quick response and loud voice

With built-in buzzer. Once smoke or fire hazard is detected, the red indicator light of the detector flashes immediately, and an alarm sound exceeding 90db is emitted

Eco friendly ABS fireproof material

Excellent corrosion resistance and heat resistance

Product size:



Power supply	9V Battery
Wireless Protocol	802.11B/G/N 2.4GHz
Standby current	<20uA
Alarm current	<100mA
Low voltage	2.5V±0.1V
Alarm volume	>90dB (3m ahead)
Working temperature	-10°C~+50°C
Working humidity	≤95%
Product size	90mm×40mm
